**MEMORANDUM FOR:** Project Security Officer

**SUBJECT:** Memorandum from Mr. Scoville regarding  
briefing of six OSI officers (SAPC 7264)

1. On 18 June, at the time that the approval by me on behalf of Mr. Bissell was given for briefing the officers in the referenced memorandum all of whom were already cleared for special intelligence, we were faced with a need to get these specialists briefed in order to exploit ELINT tape for operational purposes as well as to lay the ground work for establishment of the Technical Processing Center. In view of SI clearances already obtained I felt it would be desirable to make this authorization, which I did.

2. However, in order that the records should be straight, would you be good enough to ex post facto make such additional clearances as is necessary from the point of view of the Project.

3. If there is anything that I can do in addition to straighten out this situation, please let me know.
